Information regarding The K9 Chiro

Dani Paizis MSc MMAA. is a McTimoney Animal Physical Therapist and holds a Masters Degree in McTimoney Animal Manipulation from the McTimoney College of Chiropractic. Dani is a member of the McTimoney Animal Association and holds public liability insurance.

Dani provides adjunctive therapies to aid and assist in the following;

- Pain management of chronic musculoskeletal conditions
- Assessment of the lame patient where symptoms are sub-clinical and no pathology has been found
- Pre and post surgical rehabilitation
- Continued care of the geriatric patient – including home management guides/exercise plans and arthritic pain reduction strategies – including end of life care plans
- Weight management
- Pre hydrotherapy assessments and fitness programme management
- Musculoskeletal assessment of the performance dog
- Support of the neurological patient
- Wellness checks for the healthy dog, including puppy check ups.
- Support, treatment and guidance for the canine athlete

Treatment modalities utilized:

- McTimoney chiropractic technique
 - Low level laser therapy
 - Deep tissue massage and mobilization
 - Movement improvement techniques
 - Fitness and rehabilitation programmes
 - Home management advice
 - Thermography scanning.
-
